

Installation Guide for Bike Rack

Preparation:

- Clean the trunk/hatch of your vehicle
- Cleaning cloth & cleaning liquid (recommended)
- Wearing gloves to install is highly recommended

Step 1:

Flip open the adjustable pivot to release the lever.

Step 3:

Pull out the nylon attaching and attach the rubber hooks to each side and tighten firmly.

Step 4: Tighten the adjustable pivot by rotating the knob.

Step 5:

Loading your bicycle and tighten the rubber cradle.

Step 2:

- Mount the bicycle bracket on the back of your vehicle.
- Place the lower bar below the license plate, and upper bar on top of the trunk.
- Leave a 2-3 inches from the vehicle.

⚠ [Safety Warning/Caution] Should not load more than 3 bicycles. Make sure both top and bottom foam are in position.
