

Installation Guide for Roof Top Bag

⚠ [Safety Warning/Caution]

- Do not load exceed the designated carrying capacity (50lbs)
- Only install onto the vehicle that equipped with crossbars
- Wearing gloves to install is highly recommended
- Professional Installation is highly recommended

Step 1:

- Clean the roof of your vehicle
- Place the Cargo bag onto the roof. The position of the bag should be in between the crossbars
- Make sure the zipper side is facing upward

Step 2:

- Unzip the bag and load the items. It is recommended to put the heavier items at the bottom
- Double check all the items are placed evenly on the roof
- Make sure to zip the bag and cover the zipper with the outer layer

Step 3:

- String the strap through the plastic ring on the bag
- Wrap the strap around the crossbar
- Thread the strap through the buckle, and pull the strap down firmly

The straps should cover the bag as shown

FINAL

- Repeat above steps to each side
- It is recommended to do a test drive to secure the cargo bag stay firmly
