

Installation Guide for Roof Cargo Basket Net

⚠ [Safety Warning/Caution]

- Clean the roof and crossbars of your vehicle with cleaning cloth & cleaning liquid
- Do not exceed the recommended weight limit for your vehicle
- Only install and/or secure onto the cargo basket rails and roof rack bars
- Cargo basket net should be centered over the cargo basket or cross bars
- Remove cargo baskets and nets before entering car washes
- Wearing gloves to install is highly recommended

***The cargo net is an accessory designed to be used with our roof cargo basket.**

Step 1:

- Place the net over the gear and stretch out the roof basket net

Step 2:

- Find the secured mounting points and attach the plastic hook to each side of the roof basket
- Attach the heavy duty plastic hooks to the load bar or other tie down point of your roof cargo basket

***It is recommended to do a test-drive to make sure the net is securely held in place**
